

2006 ANNUAL EAST CENTRAL SECTION BUSINESS MEETING AND TRAINING

Current Initiatives Regarding Air

Date: 11/17/2006

Meeting
Time: 8:00 a.m.

Race
Time: 12:30 p.m.

This year, the Kentucky Chapter of AWMA is hosting the annual section meeting that will draw attendees from Kentucky, Ohio, Indiana, and Michigan. The sectional business meeting will be part of a half-day workshop on current regional initiatives in the regulation of air toxics, with speakers updating the attendees on Louisville's STAR program, the Ky. DAQ program coming out soon, the new Ohio program, perspectives on the Michigan air toxics program, and even a speaker from U.S. EPA on the topic of residual risk.

We anticipate a good audience for this workshop, as we're promoting it throughout all the AWMA Chapters in the ECS, as well as to local/regional industrial environmental professionals grappling with the air toxics regulations.

The workshop will be held the morning of Friday, November 17, 2006, in a private room at the historic Churchill Downs. After the workshop, we will have a delicious catered lunch and then all are invited to stay for the afternoon's racing card, to be enjoyed from the luxury of the owners' suite!

To help underwrite the costs of the event, we are actively seeking sponsors at any of the three following levels:

- WIN: \$500:** One attendee, sponsorship of one race (in the official day's program, limited number available) or half off second attendee, and sponsor name/logo on workshop materials.
- PLACE: \$300:** One attendee, two messages showing sponsor name on the track board (JumboTron), and name/logo on workshop materials.
- SHOW: \$100:** No comp'ed attendees, two messages showing sponsor name on the track board (JumboTron), and name/logo on workshop materials
